Subject: Dimock status

Cindy, I believe we are still waiting on a few more EDDs to be sent from NAREL for the Feb sampling and they still need to send all data for the March sampling.

Cindy and I responded to a list of outstanding report items that was sent last week by Deb and Kelley. We are up to date now except for a new Verification report that just came in today. I will respond to it on Tuesday

That is all I know for now.
